

Logix PakStrapper | Superior Performance

Reliable High Speed

The Essential Automatic Strapping Machine

The Logix PakStrapper delivers superior performance resulting in the ideal combination of high speed, efficient sealing and accurate tension to deliver professional strapping performance.

Tension Control & Multilingual LCD Display

Switches adjust strapping tension for optimal package results. Control panel turns to enable operation from front or rear.

Automatic Cycle Start & Delay Time (Option)

Automatically initiates the strapping cycle when a package is detected.

Quick Coil Change (Patents Registered)

Ergonomic design makes quick coil changes simpler than ever.

High Sealing Efficiency

The sensor controlled heating mechanism ensures consistent and secure sealing.

Free-Access to Strap Guides (Patents Registered)

Designed to access the strap guides without tools.

Robust & Compact Strapping Head

The German-made motor is engineered to provide the highest level of accuracy and reliability.

ITEM NUMBER	171345
PP STRAPPING	9 mm
TENSION RANGE	1 - 32 kg
ELECTRICAL	110V 1-PHASE
ADJ. TABLE HEIGHT	820mm to 920mm
ARCH W x H	850 x 600mm

47 CYCLES PER MINUTE

1 FREE STRAPPING COIL
