

## LOGIX SEMI-AUTOMATIC L-SEALERS

**AP-1622A**

**AP-2028A**

**AP-3040A**

LOGIX PREMIUM models are geared to moderate volume users in production environments. With a more powerful magnet system and faster, more efficient arm controls, these units offer the best quality ROI in the marketplace.

### Features

- Power belted discharge conveyor
- Dual magnet clamping
- Pin perforation hold punch
- Variable dwell/seal time
- Variable conveyor time
- Seal head return cylinder
- Locking casters
- Linear bearings allow sealing platform movement for perfect alignment

Item	Model	Power			Weight	Dim. (L x W x H)	Sealing Size
		Voltage	Phase	Amp			
186050	AP-1622A	220V	1	15	320 lb	63 x 31 x 39"	16 x 22"
186052	AP-2028A	220V	1	15	330 lb	75 x 34 x 39"	20 x 28"
186053	AP-3040A	220V	1	15	620 lb	98 x 44 x 39"	30 x 40"

## LOGIX SHRINK TUNNELS

**AP-221044**

Our LOGIX line of tunnels are suitable for most standard applications and come in a variety of sizes to couple with your choice of sealer and complete the shrink wrap process. Strong seals, consistent film shrinkage and excellent package appearance are guaranteed.

Item	Model	Power			Weight	Machine Dim. (L x W x H)	Chamber Dim. (L x W x H)
		Voltage	Phase	Amp			
186330	AP-180828	220V	3	25	455 lb	42 x 28 x 60"	28 x 18 x 8"
186049	AP-221044	220V	3	30	710 lb	61 x 31 x 62"	44 x 22 x 10"
186042	AP-221248	220V	3	30	750 lb	66 x 31 x 64"	48 x 22 x 12"
186043	AP-301048	220V	3	25	820 lb	66 x 44 x 61"	48 x 30 x 10"
